

Church Matching Scholarship

At Montana Bible College, we are about the business of expertly equipping students for the mission of furthering God's kingdom. MBC provides dedicated students with a high-quality Bible college education at an affordable price in a context of loving discipleship. To that end, we are honored to share with you the privilege of participating in the advance of the gospel of Jesus Christ. Would you partner with us by investing financially in the student from your congregation to attend Bible college? If not such students exist in your church family, perhaps you would consider "adopting" a current MBC student who has financial need (please request more information).

Montana Bible College does not accept any federal or state funding (and all the strings attached), and yet our tuition costs and fees are still considerably lower than other similar institutions. However, we need help from partners to provide such training at an affordable price with the goal that our students graduate debt-free. What better way for your church family to encourage and invest in a student than by helping with a scholarship? With your support, MBC will match any scholarship you provide up to \$1000 per academic year. Of course, you are welcome to help beyond the \$1000, but the College is currently able to match funds only to that amount. It is required that the student maintain a GPA of 2.75 during this time and not be under any other probation or discipline. This scholarship (church's portion + college's match) will be distributed over two consecutive semesters.

Please consider this scholarship request as a ministry of your church. If you decide to help the student named below, you can send your scholarship directly to MBC with bottom portion of this application. MBC will acknowledge your gift, apply it to the student's account, and add the matching portion.

Thank you very much for prayerfully considering this ministry in the lives of the next generation.
